What's Amazing Marvin? 🤖

In case it's been a while since you have been with us... [Amazing Marvin](#) is *the most* flexible personal productivity app on the market today. It is built for people with ADHD and procrastination tendencies.

Been a while? Log into your account and restart the trial automatically.

Log into your account and have a look at all that has changed. You should get to restart your trial automatically upon login, otherwise, just reply to this email and we will help you out.

What's coming up? 🤖

For 2025 our biggest priority is an **improved Mobile app**.

We are also working closely with some ADHD communities to improve the app experience with more **sound options for time awareness, improved focus mode, and background music**.

Another big feature we are cooking up is **auto scheduling**, for anyone who wants Marvin to help them plan their days and weeks.

Dashboards are also a high priority. These will include some neat features such as a productivity score and a procrastination score.

Our **Matrix feature** will also get a major update along with a more dedicated **Kanban layout** (although you can already get a Kanban layout with current features).

We also want to mention that **collaboration** is something we have on the drawing board (optional as always).

We are also planning out a break feature, custom challenges, reflections, more gamification and much more....

Never managed to make Marvin work for you? 😞

We would love to help. **Just reply to this email** with your situation and challenges and we can make a custom video for you.

Or [join our community on discord](#) and join one of our live office hours where you can mention any challenges you face and we go through it as a group.

With much gratitude,
Christina and the Amazing Marvin team 💖
